

Particulate Filter P3 R

Standard: EN143: 2000+A1:2006

Description

Filter approved for respiratory protection against certain oil and non oil based particles, compatible with FESI 7600 respirators.

Features

- Designed for high heat or wet applications
- High breathability and long service life
- Wide range of applications reduces inventory needs
- Universal bayonet system more compatible

Filter material:

Glass fiber paper level P3 R

Application

Arsenic, Asbestos, Assembly & Mechanical, Batch-charging, Brazing, Cadmium, Clean-up, Finishing Operations, Grinding, Handling, Maintenance, Manufacturing, MDA, Metal Pouring Including Exposure to Lead, Pouring/Casting, Primary Metal, Remediation, Sanding, Soldering, Torch Cutting, Welding, Wood Processing

Specification:

- A minimum efficiency of 99.95 % against certain oil and non-oil based particles
- Simply press or squeeze the filter for proper seal of the respirator.

Certification

EN143: 2000+A1:2006, compliance with the PPE Regulation (EU) 2016/425

Manufacturer

Xiamen Safety Protection Equipment Co., Ltd.

No.809 Songyu Middle Road, Xiamen Area of China (Fujian) Pilot Free Trade Zone
